

# Mega Room – Type of Bit Mouthpieces

## Hey, Watch Your Mouth!

This is a Mega Room Phase simulation. The participants will need to identify 9 bit mouth pieces.

The quiz members compete in the Mega Room phase as individuals. They enter the room as a team, but will approach each table as an individual, and will be at the table with other competitors who are NOT on their team. There is to be no talking and generally no touching of the items on the table. If you need to touch an item on the table, ask the table judge first.

Print pages 2 - 4 (the Mouthpiece cards) on card or cover stock paper. Cut them out such that each individual card has both a letter and a picture.

Below are the answers.

Page 5 is the answer sheet onto which the competitors write their answers. Give one answer sheet to each competitor.

The last page simulates what would be used by the organizers to record the total score of the competitors

### Answers

C	Mullen Mouth
G	Single Joint
A	French Link
J	Oval Link
F	Dr Bristol
E	Slow Twist
B	Fast Twist
H	Roller
D	Port
